Introduction of ESABII and its efforts for taxonomic capacity building

16 October 2012

Fumiko NAKAO Ministry of the Environment, Japan The Secretariat of AP-BON

What is ESABII? (since2009)

East and Southeast Asia Biodiversity Information Initiative

Goal

Contribute to the implementation of the Strategic Plan* for the CBD

* Strategic Plan 2011-2020

Means

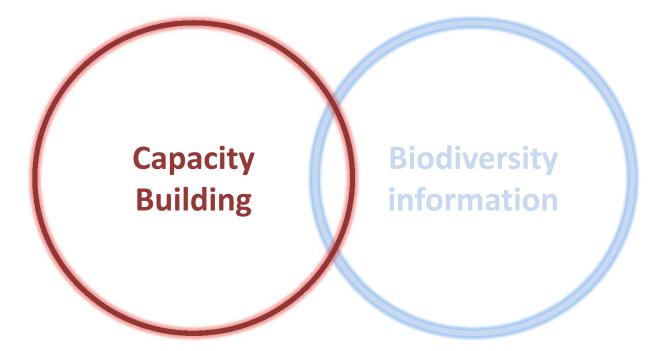

Particularly by addressing the Target 19 of the new Strategic Plan through:

- ✓ Raising taxonomic capacity
- Development of biodiversity information system

Target area

ESABII components

Capacity building - Overview

Training workshops on taxonomic capacity building

- Terrestrial biodiversity (vascular plants)
- Marine biodiversity (corals)
- CITES appendices species
