The Nippon Foundation

**Ministry of the Environment**

# Programme

Saturday, October 23, 2010

ESABII and NaGISA Joint Conference in Commemoration of the CBD COP10, Nagoya

- 09:30** Registration
- 10:00** Opening remarks
- 10:30** IPBES and New Zealand's Terrestrial and Marine Biodiversity Monitoring and Reporting Framework *Dr. Geoff Hicks, Department of Conservation New Zealand, IPBES*
- 10:55** Census of Marine Life - Past and Future *Dr. Ron O' Dor*
- 11:20** Ocean Biogeographic Information System *Dr. Edward Vanden Berghe, OBIS*
- 11:45** Mapping and analysis tools to support CBD implementation goals *Dr. Patrick Halpin*
- 13:30** ESABII database development *Prof. Motomi Ito, University of Tokyo*
- 13:55** The Biodiversity Information Sharing Service of the ASEAN Centre for Biodiversity  
*Dr. Sheila G. Vergara, ASEAN Centre for Biodiversity*
- 14:20** Development of Biodiversity Informatics in China  
*Prof. Ma Keping, Institute of Botany, Chinese Academy of Sciences*
- 14:45** Vietnam: Development of the National Biodiversity Database System  
*Ms. THUY Phung Thu, Ministry of Natural Resources and Environment,*
- 15:30** NaGISA Poster Session at the 1st Floor

Sunday, October 24, 2010

NaGISA Western Pacific Marine Biodiversity Conference

- 09:30** High Seas Conservation Policy and Science  
*Dr. Jeff Ardron, Marine Conservation Biology Institute*
- 09:55** The NaGISA project: legacy in South America and the Caribbean *Dr. Patricia Miloslavich*
- 10:20** Coral Taxonomic Capacity Building Program under the ESABII *Dr. Kohei Hibino*
- 10:45** Identifying potential winners and losers in a warming world *Dr. Gray Williams*
- 11:10** Global Perspectives on Marine Biodiversity from the Census of Marine Life  
*Dr. Jesse Ausubel*
- 13:30** NaGISA Western Pacific Regional Research Session
- The relationships between eutrophication related parameters and macrozoobenthos assemblages in the tropical waters of Lampung Bay, Indonesia
  - The correlation of meiofauna distribution in five Mekong estuaries, Vietnam
  - The Population Study of Keyhole Sand Dollar *Echinodiscus Truncates* in Penang NP, Malaysia
  - Species diversity and distribution of marine sponges from Tarutao and Adang-Rawi Islands, the South Andaman Sea of Thailand
  - Reproductive Development of *Actinopyga echinites* in Philippines
  - Effects of El Nino on the growth and production of *Enhalus acoroides* at Banten Bay, Indonesia
  - Diversity of nudibranchs at Mu Ko Thale Tai NP, Thailand and some biological aspects
  - Propagule Dispersal and Early Development of the Mangrove *Avicennia marina* and *Rhizophora apiculata* in the Southwest Coast of Penang Island
  - State of Coral Reefs in St. Paul Bay, Palawan Philippines
  - Stony coral (Scleractinia) Spatial Distribution in Southwest Natuna Island, Indonesia
- 17:20** Closing Remarks

**Prior registration is unnecessary. Please come directly to Noyori Conference Hall, Nagoya University.**
